RESPONSE TO REQUIREMENT FOR RESTRICTION

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In response to the Office Action of November 2, 2007, applicants hereby elect the Group IV invention for a method for promoting interleukin production in a mammal. Claim 8 is drawn to the method elected.

The election is made with traverse because the inventions of Group V and VI share common definitive technical features with the Group IV invention. In each of those inventions, immunity can be stimulated, and infectious disease prevented, by promoting IL-8 production. As such, the claims of each of Groups IV, V and VI should be examined together.

Respectfully submitted,

Richard G. Lione
